Our Corporation

GF – with its three divisions GF Piping Systems, GF Casting Solutions, and GF Machining Solutions – offers products and solutions that enable the safe transport of liquids and gases, as well as lightweight casting components and high-precision manufacturing technologies. As a sustainability and innovation leader, GF strives to achieve profitable growth while offering superior value to its customers for more than 200 years. Founded in 1802, the Corporation is headquartered in Switzerland and present in 34 countries with 138 companies, 60 of which are production companies with 83 facilities. GF's 15'207 employees worldwide generated sales of CHF 3'998 million in 2022.

Employees per region 100% = 15'207

Our corporate culture

Our employees are the driving force behind the company's success and for the realization of the Strategy 2025. As a leading global company with a focus on sustainability and innovation, GF inspires a collaborative spirit at all levels and locations, encourages new approaches to teamwork and supports each employee's personal and professional growth.

29% of newly appointed managers are women

Culture Movement

We continued to roll out the Culture Movement in 2022. This initiative encompasses all employees and aims to embed the GF values in their daily activities. A number of Change Agents, employees who have volunteered to participate actively in the movement, are helping to convey these values and behaviors to local teams.

Our divisions

GF Piping Systems

As the leading flow solutions provider for the safe and sustainable transport of fluids, GF Piping Systems creates connections for life.

GF Casting Solutions

GF Casting Solutions is one of the leading solution providers of lightweight components in the mobility and energy industries.

GF Machining Solutions

GF Machining Solutions is one of the world's leading providers of complete solutions for precision components and tools manufacturers, and the mold-making industry.

Our Forward Stories

Read how GF is creating positive impact and responding to an ever-evolving landscape by developing innovative solutions for its customers to address global challenges.

GF Piping Systems is helping its Belgian customer Ekopak develop a practical solution for using water resources in industry and households as sparingly as possible.

The R&D departments of GF Casting Solutions and BMW in Germany are working closely together to create new approaches for the efficient production of light car bodies.

GF Machining Solutions supports its Swiss customer Berhalter in producing costefficient packaging with new materials.
